EXPERIENCE

Infostrategy Technology Limited, Abuja —Front-end developer Associate

April 2024 - To date

- Developed and maintained a robust ERP SaaS web application using Next Js, enabling seamless operations and improved user experience.
- I Integrated RESTful APIs to support real-time data synchronisation across various modules of the ERP system.
- Designed and implemented dynamic, reusable components with a focus on scalability and performance optimisation.
- Debug and resolve issues and bugs reported by users or QA.

XtraTech Global Solution, Abuja — *Front-end Developer*

November 2023 - April 2024

- Contributed to the development of the Xtrapay app that enables low-cost inter-bank transfer and streamlining financial transactions
- Spearhead the implementation of a monitoring portal that enables support persons to monitor financial transactions for the Xtrapay app
- Contributed to the development of strategies that allow users and agents to enjoy monthly royalty benefits when transacting with the Xtrapay app

Flexisaf Edusoft, Abuja —Front-end developer (intern trainee)

May 2023 - August 2023

- I Created maintainable reusable components that reduced development time by 23%.
- I Maintained active communication with 3 clients to ensure customer satisfaction of over 80%.
- Design an EdTech web application using React and NodeJS with a team of 8 developers
